25X1 the unit arrived indicated, however, that the unit came from the Loewen Kaserne (2063) which quarters the 18th (?) Engr Bn of the 1st Mech Div. It is possible that individual vehicles of army troops were among the vehicles of the battalion. The reason for the departure presumably was to prepare the bivouacking area for the units of the division which followed three days later.

25X1 3. [redacted] Comment: [redacted] the train that stopped at Neustrelitz railroad station carried elements of the 10th RL Regt and that at the Gransee railroad station probably elements of the unidentified AAA regiment of the IX Mtz Rifle Corps.
